

Spouncers

Laurel

cowtown@cowtownstamps.com

Spouncer: now there's a strange word, but it's a fun tool with a wooden handle and a wire-y looking top. It is very easy to use, just tap the spouncer into any ink pad and then tap or swirl on your paper.

Spouncers come in 2 types: coarse or fine. The coarse is more random and "rougher" looking. The fine gives you a tighter pattern and a little more uniform looking.
