

Torn Mask Technique
becky-little'b'
bjeffress@bellsouth.net

Tear text weight paper to create irregular edge.
Start from right side of cardstock, place mask down

Stipple or sponge ink in two shades to cardstock blending as you go.
Here I used 2 shades of green.

Shadow with a darker color-possibly a blue violet.

Move mask to next position keeping in mind to vary placement.

Repeat stippling/sponging as before across page, varying mask each time.

Ink flower with green for stem, purple for bloom, and stamp repeatedly.

Some images are second stampings.

Ink sentiment and stamp.

Cut to correct size.

Edge with gold leafing pen.

Mount to layer.

Mount to folded card.
